

# REDCLIFF REVIEW

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

Volume 18

THE REDCLIFF REVIEW - THURSDAY, APRIL 23, 1931

Number 94

## Service Cut Down at C. P. R. Station Here

Officials Decide To Cut Out The Night Operator

Citizens of Redcliff received a surprise last Friday as the news spread around that the C. P. R. had decided to reduce its staff at the station here by discontinue its night operator. This means that instead of the station being as busy as part of the night, for the transaction of business, as in the past it will now be closed at five o'clock in the afternoon and only open for twenty minutes before and after the arrival of the evening train.

While it is only natural for any corporation like the C. P. R. to curtail expenses in keeping with revenues, it appears hardly fair to penalize an industrial center like Redcliff, which, with its freight on incoming raw material and outflowing finished products furnishes enough revenue annually to the company to warrant it giving in return the very best possible service at this point.

With five going industries here all doing business with points from Winnipeg to the Coast, as much as possible of an all day service on the C. P. R., our only telegraph, express, passenger & freight system, is almost absolutely necessary for the successful carrying on of those industries.

For the C. P. R. to skimp on the service at a point so financially advantageous to the company surely looks like very unfair and unreasonable treatment.

## Futures Trading Probe Still Taking Evidence

Will Be Hard To Decide The Ultimate Outcome.

From the evidence taken so far at the sitting of the royal commission investigating the effect grain futures have on the price to the producers, it looks as though it is going to be a hard question for the commission to decide. Most of the evidence is in favor of futures. At least little or it is very definite proof against it.

The situation appears to be that those favoring futures have mustered their forces and secured much better evidence than those opposed.

It would appear so far that much is to be said both for and against dealing in futures but one thing appears to be reasonable certain and that is along the line suggested by A. J. McPhail, chairman of the Pool's Central Selling Agency, who recommended the supervision of futures trading.

Another feature brought to light at this investigation is that those who gamble in grain futures and whom the chairman of the commission referred to as "mosses," are being referred to millions of dollars every year through manipulation and are entitled to some government protection as well as farmers.

The British Parliament gave second reading to a bill to grant municipalities and local authorities the privilege of allowing Sunday movies.

## "The Felton Mystery" First of Series

Little Theatre Association to be Organized Here.

"The Felton Mystery," a thrilling one-act comedy which is to be presented in Cameo Theatre on Friday, May 1st, will be the first of a series of plays to be put on in the local theatre.

Many people believe that a Little Theatre Association would fill a long needed want in Redcliff, and it is the intention of the management to organize a regular Dramatic Association for the purpose of putting on a series of plays throughout the winter months for charitable purposes. The cast of the Felton Mystery, will form the nucleus around which the new organization will be built. Membership will be open to all interested and after a certain reserve has been set aside for operating expenses the proceeds from the plays will be distributed among the local churches. It is also expected that Redcliff will be able to send a representative play to the next Dramatic Festival in Calgary, Banff and Drumheller were the new entrants last year and both places acquitted themselves with credit.

"The Felton Mystery" will introduce to local thespians a veritable array of new talent, and the histrionic ability of many of the players is bound to provide a happy surprise. Owing to the fact that the mystery play opens with a murder and complications set in immediately, patrons are advised to be on time. Programs which have been distributed should be taken to the theatre so that the various characters may be identified.

## "Hell Harbor" is Coming to Cameo

One of the first productions to be filmed on location entirely out of doors is "Hell Harbor," the romantic drama starring Lupe Velez, which comes to the Cameo theatre on Wednesday next.

The picture was suggested by Rita Johnson Young's novel, "Out of the Night," and is the work of Henry King, director of "The White Sister" and "Stella Dallas."

"Hell Harbor" is said to offer Lupe Velez the greatest opportunity of her screen career, presenting her in the part of a high spirited young modern, descendant of the great pirate chief, Sir Henry Morgan.

Around this theme is developed a story rich in incident, local color and tense drama. There are the thrilling fight in the honky-tonk between Morgan and Wade, the death battle between Morgan and Homogold and the strange life that is to be found under the Caribbean moon. Filmed in Tampa, Florida, amidst natural tropical settings, "Hell Harbor" is said to have one of the most beautiful backgrounds used for a picture. The entire production was filmed in this locale; there is not a studio shot in the picture.

The Provincial Government has announced that the plan of free shipments of feed to farmers expires on April 30.

## Oddfellows Decide To Buy Crowe Building

Will Have It Fixed Up For Lodge Purposes.

At the regular meeting of the local Oddfellow's lodge held last evening it was decided that the lodge purchase from the town the building on Broadway known as the old Crowe building, for the price set by Council at its last meeting.

The Review understands it is the intention of the lodge to have the building completely renovated and fitted up in first class style for lodge purposes.

It is understood that as soon as the deal is consummated with the town this work will be commenced and rushed through as quickly as possible. We are informed that elaborate plans are being considered to make this one of the most up-to-date lodge rooms and meeting places in the district.

When the repairs to the building are completed it will greatly improve the appearance of the street in that quarter.

## Quarry Lodge Has Succesfull Social

Was Well Attended and was Much Enjoyed.

Quarry Lodge Hall was the scene of a jolly crowd last Thursday evening when members of the local Masonic order put on a Social evening.

Progressive Whist was the first item on the program. For this there were fifteen tables all keenly contesting for the prize. When the tallies were counted it was found that Mrs. F. Conn and Mr. P. Laywell had won the first prize.

After cars Lakay's orchestra from Medicine Hat started the music for dancing and soon the floor was fully occupied. An event which caused some excitement and amusement was the silent wait. The prize for which was won by Mrs. R. S. Hojce and Mr. Davis.

About midnight a dainty lunch was served after which dancing was resumed.

On the whole the event was a most enjoyable one.

## RUSSIA TO ADOPT CAPITALISTIC PRINCIPLE

A new wage system, known as the "Khorashevskii," will come into effect in Soviet Russia on May 1. This will bring into the Soviet system certain capitalist elements. Wages will be paid according to piece work accomplished, the industrious will be rewarded, the idler workers penalized by decrease earnings. It looks remarkable like the thin edge of the capitalist wedge, and it is significant that the Soviets have adopted this system regrettably, knowing that it is a departure from strict Marxian Socialism.

According to British co-operative officials in Calgary last week, arrangements may be made whereby Canada will obtain a market amounting to 400 or 500 head of cattle a week from Great Britain. This should be good news in Alberta where some of the best cattle in the world are raised.

## Brick & Coal Engine Blows Cylinder Head

Cause Commotion But No One Was Hurt.

Quite a commotion was caused at the Brick & Coal plant last Monday when the cross head of one of the engines let go and knocked out the cylinder head.

In its wild career the engine scattered misers in all directions but fortunately no one in the engine room at the time was in the path of the flying scrap. As a result no one was hurt.

The broken parts were soon repaired and very little delay in the running of the plant was caused.

It was necessary to shut down the machine for making wire-cut bricks for a few days.

Keep in mind the three one-act plays which are to be put on in the Cameo theatre. May 1st, by the St. Ambrose Church entertainment committee. A look at the programs which are now out will convince you that it is going to be good. Don't miss seeing this entertainment.

Recent survey of the province with a view to ascertaining the extent of speculation on grain, revealed that between \$100,000,000 and \$150,000,000 was lost by the people of Alberta, urban and rural, by speculating in wheat futures during the 12 months preceding June, 1930.

This statement was made by N. F. Priestly, vice-president of the U. F. A., to the Royal Grain Commission headed by Sir Josiah Stamp, at the Saturday afternoon session in the Palliser hotel.

## Here and There

Over 1,600,000 lbs. of salmon were caught in the coastal waters of Quebec last year, of 616,000 lbs. more than in 1929.

Potato shipments from Halifax are now over for the season and have been declared to be the largest in the history of the port.

Illustrating the growth of our trade with Canada, \$2,500 foreign cars entered Canada in 1930, while in 1929 the total was \$489,458.

At the end of February of this year, official registration of radio sets in Canada totaled 486,158, an increase of 81,412 over the similar period of last year.

Cadmium, a by-product obtained in the production of zinc, was produced for the first time in Canada in 1929 at Trail, B.C. Used for plating purposes demand for it has increased very rapidly.

The Province of New Brunswick's largest bond issue was sold at the most favorable price, when a bid of 99.438 was accepted for \$2,511,660 4/10 per cent. 30-year bond issue, making the interest cost to the province 4.82 per cent.

New bridges to span the St. Lawrence and other rivers are to be built by the Quebec Government this year at a cost of \$2,000,000. They will be built at a rate that will link up the highways in the province into a whole.

First large cattle consignment to move east since November, 15 cars of 212 head of cattle for sale at Great Britain, left Winnipeg by special Canadian Pacific train which travelled 27 cars of stock, including 22 cars for eastern Canada points.

A single British Columbia Skiba pole may contain 2,000 to 3,000 feet board measure of lumber. Lumber used in building an ordinary five-or-six-roomed frame house is estimated at 12,000 feet, hence two good Skiba poles would make good lumber for the house.

Crowds estimated at 500,000 people watched the happenings as the body of the Clyde from her birthplace at Clipperton to undergo trials. The ship was escorted by six tugs, a police launch and six airplanes. This \$150,000 ship was built for a speed of 24 knots and has a hull done 24 knots in preliminary trials.

## Football Game Here Saturday Night

Legion United and Brick and Coal to Play at 6:15

Arrangements have been made to have a football game here Saturday night next between the Legion United of Medicine Hat and the Brick & Coal.

The Hat team has entered the league under this name and we are informed they have a snappy line up. As the Bricks are also in good shape a real game is anticipated. Don't miss seeing it. The game is called for 6:15.

## Resources Transfer Increases the Idle

Throws Many Ottawa Employees Out of Work.

One of the most controversial issues which has arisen in recent years is the reorganization of the department of the interior, leaving over or natural resources or the course provinces has reduced the labor of this department by probably forty per cent. There isn't any work for several hundred employees and the Government has declined to keep on the payroll that number of guests.

There has been one tremendous howl about the unfairness of the treatment. Down at Ottawa the belief persists that every one in town has a Heaven-born right to perpetual employment by the rest of the people of Canada. The Bennett Government does not subscribe to that principle. Hence the wails.

The truth of the matter is that in 1926 the King Government announced the transfer of the resources to the Prairie Provinces. For four years it toyed with the question and in those years, instead of pinning down the department and taking care of employees by transfer to other departments it actually increased the employees from 2,068 in 1926 to 2,415 in 1930. And the employees do nothing to help themselves in new jobs. After four years or more of notice the complaint is made bitterly that it is now all heartless and sudden. No city in Canada has had the steady flow of wages enjoyed by Ottawa in the current depression wages out of the taxes of all Canada, and now, when the Government refuses to spend public money where there is no work to be done the old news spreads like a stick pin. In fact the town is squealing a lot more than the men & women directly affected.

## GRAIN MAN URGES GENERAL GRAIN PROBE

A Calgary sitting of the Stump Commission on Saturday, Mr. J. B. Murray, vice president and general manager of the Alberta Grain Company, suggested that an investigation should be made into the operations of wheat pool and private grain trade, in order to discover which method of disposing of grain was more profitable to the producer.

In attempting to do a devil's stunt last Monday, Langley Stone had a nasty fall which badly disfigured his face. He fell about 30 feet. Fortunately no bones were broken and he is now able to be around again.

## Public Meeting Here For L. I. District 122

To Appoint Advisory Board For Tilley East Area.

A public meeting of residents of Local Improvement District No. 122, is called for Saturday evening of this week. The meeting is being called by the Harvest Vale U. F. A. local for the purpose of appointing an advisory Board from the said district to the Tilley East Area Commission in administering the affairs of the district and is in keeping with the suggestion made by the commissioners at a meeting in Bowell last week.

The meeting which is called for 7:30 p. m. will also be open for the discussion of matters concerning the welfare of the district.

As the appointment of this advisory Board is an important matter and as there are many questions of great interest to residents of the district, to be discussed, it is hoped there will be a good representative attendance.

It is now beginning to look as though the much delayed settlement of the affairs of this area are approaching some definite solution. The appointment of this advisory Board of local men who are conversant with conditions and have remedies to suggest should have a tendency to hasten an equitable and satisfactory adjustment.

While repairing the roof of the Redcliff hotel last Friday F. Broughton met with a painful accident, which, fortunately, was not more serious. When handling a roll of hot pitch the vessel upon spilling the contents over Mr. Broughton's hands, although badly burned and suffering great pain, the burns were not serious.

## Churches

### CHURCH OF BRETHREN

Rev. Ira M. Zeigler, Pastor  
Services every Sunday  
Sunday School 10:30 a. m.  
Morning service 11:30  
Evening Services at 8:00.  
Choir practice every Thursday evening at 7:30.

Everybody welcome. A special invitation is extended to those who have no church home or do not attend any Sunday School.

### GORDON MEMORIAL UNITED CHURCH

Pastor - Rev. R. Ervin Fow  
Sunday, April 26th, 1931  
10:00 A. M.: Church School.  
11:15 A. M.: Morning Worship.  
Subject: "The Fifth Beatitude."  
7:30 P. M.: Evening Worship.  
Subj.: "Unity, a costly heritage  
"I am the Resurrection and the Life."

### ST. AMBROSE CHURCH

Rev. Malcolm Stewart, Vicar.  
8 a. m. Holy Communion.  
10:00 Sunday School & 4 p. m. 11 a. m. Matins and sermons.  
7:30 p. m. evening & sermons.

### ST. MARY'S CHURCH

Celebration of Mass every Sunday of each month except the First Sunday, at 8:30 A. M.

## The finest quality tea you can buy

**Brown label Salada 70 cts a lb**  
 'Fresh from the gardens'

### Where West Leads The East

General recognition is accorded to the fact that the West leads the East in grain and livestock production. It is known that the Western Provinces have a greater railway mileage per capita than the older settled provinces. It is established and recognized fact that there are more rural telephones per capita in the West than in the East. It is not so well known that the West leads the East by a wide margin in the field of aviation. Yet most of us are as disclosed by the first annual report of Canadian Airways Limited, recently issued.

According to the report of this company, which is an amalgamation of all the large aviation companies in the Dominion, and in which the Canadian Pacific and Canadian National Railways are now largely interested, the amount of air business done in the West far outstrips the volume of Eastern business, and that operating conditions in the West are more favorable with the result that there is less non-productive flying and consequently greater profits here than in the East.

The figures given in this report will prove most illuminating and interesting to western people. They cover twelve months operation of the Eastern lines, and thirteen months operation of the Western lines. It is shown, for example, that the total mileage flown in the West was 754,199 miles, as compared with 1,213,925 miles in the East. Total flying hours in the West were 7,888, but with the Western total 13,137, or almost twice as great. But it is when people come to a consideration of the amount and value of the business transacted and the efficiency in operation that the supremacy of the West over the East in flying is most strikingly illustrated. Mail matter carried over Eastern lines amounted to 138,630 pounds, while the corresponding figure for the Western line was 297,443 pounds. Freight and express carried on the mail planes in the East was greater than in the West, being 14,971 pounds as compared with only 307 pounds, but freight and express carried on other than mail planes tell an entirely different story and reveal the extent to which this form of transportation has been developed in the West. No less than 404,010 pounds of package freight and express was transported by air in the West, as against 82,151 pounds in the East. In other words, the East has not developed this department of air service, apart from the regular mail planes, to anything like the extent that has been done in the West.

In passenger traffic, both on mail planes and other aerial services, an even more surprising record has been established by the West, showing that our people are becoming air-minded. The number of passengers carried on mail planes in the East was 299, and in the West 3,246; on planes other than the mail planes, 1,447 Eastern people traveled by the air route, while in the West 3,808 chose the same method. Considering the much larger population of the East the fact that 7,054 Western passengers traveled by air as compared with 1,746 in the East speaks eloquently for this Western country.

This Western predominance in the air has no doubt partly accounted for the fact that the West is now regarded as an ideal country for flying operations, and also because of further fact that distances between points to be reached are much greater in the West than in the East. That the West is well adapted to flying is demonstrated by the figures of mail efficiency printed in the report under review in this article. Out of a scheduled or possible mileage in Eastern Canada of 67,704 miles, only 558,264 miles were actually flown, leaving a loss of 118,770, or only 82.4 per cent of efficiency. In the West, on the other hand, out of a scheduled or possible mileage of 744,078, 664,034 miles were actually flown, leaving only 66,044 miles lost and representing an operating efficiency of 92.7 per cent.

The lighted airways of the West, making night flying practicable and safe, and the very fine municipal airports now in existence and being steadily improved, coupled with the excellence of flying conditions in general throughout the prairie provinces, provide an environment in which transportation will more and more prove an important factor in the life of Western Canada, and in all probability a greater factor here than in the older sections of the Dominion.

### World's Grain Show

Philippine Islands To Have Exhibit At Big Show To Be Held In Regina

The Philippine Islands are to exhibit at the forthcoming World's Grain Exhibition and Conference at Regina, in the summer of 1932, both in the competitive classes and in the educational exhibit section. The unit in charge of these displays will be the College of Agriculture, of the University of the Philippines, and Dr. M. C. Gonzales, dean of the college, and Prof. N. E. Mendicino, of the Department of Agronomy, supervising.

## ASPIRIN

No matter how severe, you can always have immediate relief!

Aspirin always stops pain quickly. It does it without any ill effects. But to the best advantage to anybody, but it always brings relief. Why suffer?

W. N. U. 1584

### Expect HeavyExports

Of Canadian Cattle Greatly Increased Market In Old Country Predicted

Cattle exporters and those in close touch with the cattle-raising industry in Ontario and the West, estimate that at least between 15,000 and 20,000 head of cattle will be exported to Britain this summer. Some exporters think Canada will have much more than 20,000 head to export, one estimating as high as 100,000, but in view of the heavy domestic consumption this seems to be generally considered improbable. In 1925, this country shipped 110,265 head to Britain, but since then the shipments dropped off steadily to very small proportions. The British embargo against Canadian cattle was lifted in 1922.

In 1932 it will be possible to ship cattle from the port of Vancouver, many supporters of that port think this will greatly lower the costs for cattle on the prairies.

Editor—What do you mean when you write, "The statement is semi-official?"

Reporter—Mrs. Gibson, wouldn't talk, so I got the story from her husband!

And the relatively small number of railway wrecks may be due to the fact that the engineer never hugs the brakes.

### Canada Well Advertised

Descriptive Booklet Was Distributed At Buenos Aires Exhibition

Canada was well advertised at the Buenos Aires exhibition in the Argentine Republic, fifty thousand copies of an artistically-designed booklet, descriptive of this country having been sent to the exhibition for distribution. The booklet is written in Spanish and as is the wording of a series of beautiful pictorial blotters that were distributed with it. The publicity length of the Department of Trade and Commerce produced the booklet, which is of a quality reflecting credit upon the publicity director, H. E. M. Chisholm. The author does not forget to tell his South American readers that Canadian invented the telephone, originated the idea of standard time, built the first submarine telegraph, made the first electric stove, discovered insulin and did other remarkable things. Many of our own citizens would profit from reading what the blotters has to say about our form of government, nor national resources and the characteristic features of the country.—Toronto Star.

### Novel Christening

Cracked Ice Is Used To Christen Submarine That Will Cross Arctic Ocean

They used cracked ice to christen the "Nautilus," the reconnoitering submarine in which Sir Hubert Wilkins plans to cross the Arctic Ocean this summer. The cracked ice was contained in a small silver barrel presented on the prow of the vessel. Lady Wilkins wanted a string, and the barrel discharged its emblematic contents—symbolic because the "Nautilus" will be used to cross the ice of the world under ice floes, coming up now and again for air and observations.

## Acids In Stomach Cause Indigestion

Medical authorities state that nearly half of the cases of indigestion, heartburn, flatulence, sourness, and other ailments of the stomach, are due to the acids in the stomach. These acids are produced by the stomach, causing the disagreeable symptoms mentioned above. Artificial digestants are not needed in such cases. The stomach is a very sensitive organ, and it is important to keep it in good health. The stomach is a very sensitive organ, and it is important to keep it in good health. The stomach is a very sensitive organ, and it is important to keep it in good health.

### Three Ingredients Needed

A blizzard calls for three ingredients, and must have all of them: cold, high wind, and a heavy snowfall, with the latter not so important as the first two because cold and a high wind to keep the snow in the air can create the impression of a heavy snowfall even when it is comparatively light.

The Family Physician—The good doctor is always worth his fee. But is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises, and sprains. The presence of this remedy in the family medicine chest saves many a fee.

A Secret Expedition A. James Taylor, only Canadian to accompany Byrd on his Antarctic expedition, has arrived at Vancouver from White Horse, Yukon, to admit that he is soon to join another expedition to Antarctica. Taylor has declared he had been ordered not to reveal. The expedition through out, it is stated, is to be conducted in secrecy. Formerly a member of the R.C.M.P., he had charge of all the huskies with Byrd.

He who will learn of none but him self hath a fool for a master.

Australian's apple crop this year is estimated at 7,500,000 bushels.

For CORNS & WARTS Remove by rubbing with this ointment. It is a sure cure. After a while the corns and warts will fall off.

WINDARD'S "KING OF PAIN" LINIMENT

### Canadian Schoolboys Are Good Marksmen

Win King's Trophy In Empire Competition Twice In Succession

Canada's schoolboy marksmen for the second time in succession have won the King's trophy in the Empire competition held under the auspices of the National Rifle Association. The Canadian lads showed marked superiority over all other competitors with a record score of 86.06 points.

In second place was South Africa with 83.85, while Britain was third with 68.85.

Fourth place was taken by New Zealand with a score of 63.16. With 580, Canada also netted the biggest bag of silver and bronze medals awarded for individual scores of 97 and over. South Africa came next with 109 while Britain secured 66.

The Dominion also monopolized the first three places in the shoot for the Junior Imperial Challenge Shield and Coligny public school third with 95.6. First and second were won by the east.

### DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become soiled from packing. I hung them out to dry, but they did not remove the stains. Then I forgot them. The result was they became badly faded and unattractive. I was heart sick until the happy thought struck me to dye them. I just dyed them a deeper green, and used Diamond Dye, which is so gorging and new. I have never seen easier dyes to use than Diamond Dye. They give the most beautiful colors—when used with other fast dyes—and never take the life out of cloth as other dyes do." Mrs. J. F. T., Montreal.

### Recipes For This Week

(By Betty Barclay)

#### ORANGE SPONGE CAKE

- 2 egg yolks.
  - 4 tablespoons orange juice.
  - 1 tablespoon lemon juice.
  - 8 cup sugar.
  - 2 teaspoon grated orange rind.
  - 2 egg whites.
  - 1 cup flour.
  - 4 teaspoon soda.
- Beat egg yolks with orange and lemon juice until thick and yellow; mix sugar and grated orange rind, and add, gradually, to egg yolks; add stiffly-beaten egg whites, and cut and fold in flour, sifted four times with a sieve. Pour into a buttered and oiled cake pan, and bake in a moderate oven about forty minutes.

#### COTTAGE CHEESE PIE

- Line a deep pie plate with pie crust and add the following mixed together in the order given:
  - 3 well-beaten eggs.
  - 1 cup cottage cheese.
  - 1/2 cup shredded carrots.
  - 9 tablespoons sugar.
  - 1 teaspoon nutmeg.
  - 2 cups milk or enough to fill the pie plate.
- Bake as you would custard pie, being careful to reduce the heat to insure a firm consistency.

Grading Canadian Potatoes The Root Vegetable Act of Canada provides that potatoes must be put up by grade—Canada No. 1; Canada No. 2; Canada No. 3, and Canada Fancy—and that on each bag, barrel or other container must be marked, by tag or stencil, the initials of the grower and full name and address of the person, firm or corporation offering the potatoes for sale.

With so thorough a preparation at hand as Miller's Worm Powders, the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful set to go to the head of the parade in parasites, especially when it can be done without difficulty.

Just As Dangerous Mother was pointing about in the shrubs when she suddenly called out: "Look, Junior! Here's a little fellow!" "You better look out," cautioned Junior. "It may be just as dangerous as a ripe one."

Crosses Publication After 106 years of publication, the Almanac Magazine is disappearing from London news-stands through a merger with the New Statesman and Nation. The new magazine will be committed to no political policy, its sponsors say.

No man is wise enough to ignore the things his wife can teach him.

### The Issue In India Voted Century Ago

Retired Official Gives His Opinion Of The Situation

"I have been in India 46 years and cannot help thinking that most of our troubles are due to the fact that in the past, politicians failed to think out the results of their actions to their logical conclusion," said Field Marshal Sir William Birdwood, who has just retired as commander-in-chief in India, in a speech to the London Devanasi Society, England.

"I hope that whatever government is in power will remember that the masses of India are illiterate and ill-articulate and will see that the safeguards we read about will be real safeguards; and that these people will not be handed over to the intelligentsia who speak in the name of India without having the same affection for the cultivators of the land as our English people have," the field-marshal added.

Asthma Can Be Cured. Its suffering is as needless as it is terrible. After its many years of relief of the most stubborn cases no one can enable the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist, he can supply you.

A Beggar's Blessing "You don't happen to have a cup of nice hot coffee on you, Mister?" asked a pan-handler of a citizen on King Street, Toronto, and the expression of gratitude when the whereabouts of the beggar was dropped into his palm was equal to original. "God bless your specs," he said heartily, "and keep 'em rose-colored."

### Smothering and Fainting Spells Everything Would Turn Black

Mrs. Andrew Black, Harcourt, N.B., writes: "I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in faint and be unconscious for several minutes. I was reading where Milburn's Heart Nerve Pills was being advertised and decided I would give them a trial. I used four bottles and found they help me wonderfully."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Fly Waxed Paper. You'll be amazed at the length of time they'll stay fresh. Delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exorbitant use ask for Appleford's "Centre Pail". Packs in sheet form.

Appleford Paper Products LIMITED

HAMILTON, ONT.

**HUNTER-MARTIN & CO., REGINA, SASK.**

## Which Would Do Most Work?

**Long Hair** is like a Magnet. Leave it on and your horses sweat excessively and all night this cold wet blanket of long hair chills the horse and prevents proper rest. Horses in run down condition are very prone to chills, pneumonia and other ills.

**New Stewart CLIPMASTER**—An electric clipper for clipping horses and cows, weighs only 3 1/2 lbs. and easily holds a hand like a grooming brush. Works from flashlight, cord, special universal cord. Price, complete, only \$25.75.

Flexible Shaft Co. Limited 1007 Main St. 349 Carlaw Ave., Toronto

**Remove** the long hair—Clipping gives new life to horses—they do more work on less feed, they are dry at night and get proper rest. Clipped horses easily groomed and clean to flower, always fit for full day's work. Keep your horses on the job.

**STEWART No. 1 Clipper**—Machine, clips fast, lasts long, never gets jammed, simple to operate, easy to clean, runs on any power. Price only \$11.95. If you desire cannot send cash, \$5.00 to order, balance on arrival. Satisfaction or Money Refunded.

## WORLD HAPPENINGS BRIEFLY TOLD

The next session of congress will probably see restriction of immigration from Canada to about 4,000 annually.

A general election in Britain before the end of the present year was predicted in an address by S. K. Radcliffe, British journalist.

The visa for Canadians going into China has not been increased so far, it was learned at the Chinese consulate at Ottawa.

A visit to Canada by Lord Jellicoe, as a delegate to the British Empire Service League meeting at Niagara Falls, is expected to take place in August.

Serious losses through outbreak are predicted for 1931, in Saskatchewan, if average weather conditions prevail, according to a warning by the Department of Agriculture.

Preservation by Canada of early specimens of architecture was urged at a meeting of the Royal Canadian Institute by Prof. E. R. Arthur, of Toronto.

About fifteen million years ago giant animals fitted high climbed around the stem cliffs of Quebec. A piece of the shell of one of these monsters of the Ordovician period has been found embedded in a limestone cliff on Valcartier Hill.

The ban on the use of dogs in hunting deer may be brought into effect by legislation at the present session of the Ontario legislature. After several contentious sessions, the fish and game committee voted 10 to 9 in favor of continuing the use of dogs.

Official notice has been given that the Army and Navy Veterans of Canada will seek power at the present session of parliament to operate reworkshops. The association's charter would be amended, according to a notice in a recent copy of the Canada Gazette.

Dr. Roland Hughes, of Philadelphia, explained to the Royal Society of Medicine, meeting in London, England, a new medicine compound to be used for making X-rays of the kidneys and bladder. The new compound is expected to considerably advance the technique of diagnosis of diseases of these organs.

## Contest Shows Girls Are Better Sleepers

And Less Grouchy in Morning Than Boys, Says Doctor

Girls are far better sleepers than men, and as a result feel more peppy and less grouchy in the morning, Dr. D. Laird, of Colgate University, said in an address at Ottawa.

An "intercollegiate good sleep contest" between girls of Colgate and girls at Radcliffe showed that girls have less trouble going to sleep, wake up fewer times and have fewer dreams.

"If you need an alarm clock to awaken you; then you need more sleep," the slumber expert said.

## Winnipeg Newspaper Union

(By Annette).

The Winnipeg Newspaper Union has no handpicks to their visiting their nearest and friendly neighbor. They do not require passports, and automobiles may be brought into Canada for tourist use for a period up to 90 days without duty or bond for a period up to six months.

It is quite unnecessary for a tourist entering Canada to pay any fee for an automobile entry permit or for an extension as Canadian Customs officers will, without charge, assist the tourist in making out the necessary papers. Canada extends a welcome to visitors from the United States and other countries.

Only Source Of Revenue Advertising Space Is All a Newspaper Has To Sell The case thing the newspaper has to sell for profit advertising space, as most circulation departments are operated at a loss. Yet it is so odd how newspaper editors hold this space so dear.

The newspaper industry is today the most highly unionized in the world. A recent survey of 28 industries shows that the printer is the most highly paid workman. The only way the newspaper can get the money to pay its printers is by selling its advertising space. What other product can keep on donating the only thing they have to sell.

Discounts Russian Wheat Menace Predicts That Within Five Years There Will Be a World Canner

For Wheat The dark marketing policy of Russia on the wheat marketing policy will vanish gradually.

Within five years, there will be a world canner for Alberta wheat.

Such were two of the main points an optimistic address, delivered by Premier J. E. Brownlee, at the annual banquet of the Alberta Association of Professional Engineers in Edmonton. At the time he was replying to the toast "The Province of Alberta."

Declaring that Russia was at the lowest margin upon which human life survived, Mr. Brownlee said it was evident that the country would move to higher standards of living.

Saskatchewan Bronze Turkey W. E. Sellers, of Strathburg, Sask., who has been showing his bronze turkeys at the fall and winter poultry shows again this year, has had another successful season. At the market shows held at Winnipeg, Saskatoon, Yorkton and Moose Jaw, his wins with turkeys include 7 firsts, 7 seconds, 2 thirds, 4 fourths, 5 fifths, 2 silver cups, 4 specials and 2 championships.

May Enlarge Power Plant The Saskatchewan Power Commission is considering an addition of machinery to the Saskatoon plant, to cost in the neighborhood of \$400,000. No additional buildings, however, will be required. Construction of additional transmission lines through the Saskatoon district necessitated the enlargement of the plant.

Consumed 7814 Sales The consumption of condensed milk in the three Prairie Provinces in 1930 reached the large total of 270,000 cases, as shown in a report of the Saskatchewan Board of Trade. Manitoba used 65,000 cases; Saskatchewan, 64,000, and Alberta, 159,000.

Under a law of 1787 James McChesney was fined \$50 at Cullinstown, Ireland, recently, for shooting game on Sunday.

"My brother is very intelligent. He has married a teacher."

"My brother is more intelligent. He isn't married at all."

Wife: "Why are you sad?"

Husband: "I've lost 11,000, and 15 was mine."—Buen Humor, Madrid.

W. N. U. 1864

## Many Tourists

5,409,458 Motor Cars Entered Canada From United States in 1930

A total of 5,409,458 motor cars conveying tourists entered Canada from the United States in 1930, or 900,649 more than in 1929. Of the total 4,130,300 came for a stay of not more than 24 hours; 1,297,059 for a period not exceeding 90 days, and 2,233 for more than 90 days.

Of the total, 51,000, the Province of Ontario had the most visitors, for 4,164,003 cars were admitted, principally at Windsor, Quebec came next 640,970 cars, followed by New Brunswick with 299,110; British Columbia with 185,118; Manitoba, 15,087; Alberta, 30,519; Saskatchewan, 26,000; Nova Scotia, 2,110, and Prince Edward Island with only one, which was 100 per cent. increase over 1929.

Tourists from the United States find no handicaps to their visiting their nearest and friendly neighbor. They do not require passports, and automobiles may be brought into Canada for tourist use for a period up to 90 days without duty or bond for a period up to six months.

It is quite unnecessary for a tourist entering Canada to pay any fee for an automobile entry permit or for an extension as Canadian Customs officers will, without charge, assist the tourist in making out the necessary papers. Canada extends a welcome to visitors from the United States and other countries.

## Only Source Of Revenue

Advertising Space Is All a Newspaper Has To Sell

The case thing the newspaper has to sell for profit advertising space, as most circulation departments are operated at a loss. Yet it is so odd how newspaper editors hold this space so dear.

The newspaper industry is today the most highly unionized in the world. A recent survey of 28 industries shows that the printer is the most highly paid workman. The only way the newspaper can get the money to pay its printers is by selling its advertising space. What other product can keep on donating the only thing they have to sell.

This situation is a relic of the days when newspapers cost little to equip or produce. In those days the printer or publisher got his pay the money came. But nowadays unfortunately the editor or publisher has to like other employers of labor—he simply cannot continue in business unless he is a fair business man. Experience has shown that the too generous publisher usually goes out of business. And yet the newspaper keeps on donating the only thing they have to sell.

Discounts Russian Wheat Menace Predicts That Within Five Years There Will Be a World Canner

For Wheat The dark marketing policy of Russia on the wheat marketing policy will vanish gradually.

Within five years, there will be a world canner for Alberta wheat.

Such were two of the main points an optimistic address, delivered by Premier J. E. Brownlee, at the annual banquet of the Alberta Association of Professional Engineers in Edmonton. At the time he was replying to the toast "The Province of Alberta."

Declaring that Russia was at the lowest margin upon which human life survived, Mr. Brownlee said it was evident that the country would move to higher standards of living.

Saskatchewan Bronze Turkey W. E. Sellers, of Strathburg, Sask., who has been showing his bronze turkeys at the fall and winter poultry shows again this year, has had another successful season. At the market shows held at Winnipeg, Saskatoon, Yorkton and Moose Jaw, his wins with turkeys include 7 firsts, 7 seconds, 2 thirds, 4 fourths, 5 fifths, 2 silver cups, 4 specials and 2 championships.

May Enlarge Power Plant The Saskatchewan Power Commission is considering an addition of machinery to the Saskatoon plant, to cost in the neighborhood of \$400,000. No additional buildings, however, will be required. Construction of additional transmission lines through the Saskatoon district necessitated the enlargement of the plant.

Consumed 7814 Sales The consumption of condensed milk in the three Prairie Provinces in 1930 reached the large total of 270,000 cases, as shown in a report of the Saskatchewan Board of Trade. Manitoba used 65,000 cases; Saskatchewan, 64,000, and Alberta, 159,000.

## Spasmodic Croup Quickly Checked

Spasmodic Croup is a dangerous condition, but it can be quickly checked with the use of a special application. Just rub Vicks on throat and chest.

**VICKS VAPORUB** OVER 10 MILLION JARS USED YEARLY

## Queer Place For Chapel

Four Bridges In England Have Church On Them

Wakefield's historic bridge over the River Calder—one of the four bridges in England to have a church on them—has been built upon it—is to be relieved of its traffic by the erection of a new bridge near by.

Such a bridge has long been necessary, since the present one is much too narrow to accommodate the heavy stream of traffic flowing between Leeds and Sheffield. The present bridge is to remain with its famous chapel in its historic position. The chapel has been used as a bacon factory, an old clothes shop, a library, a dairy, a corn factor's office, a jail, and, since its restoration in 1916, as a church.

## British Wholesale Society May Establish Packing Plant In Western Canada

The Toronto Globe publishes the following despatch from Ottawa: "Representatives of the Co-Operative Wholesale Society, with headquarters at Manchester and hundreds of stores throughout England, had a conference with Hon. Robert Welby, Minister of Agriculture. It is understood the "Co-Op" as it is popularly known in Britain, is contemplating establishment in Canada. The visitors also are looking over the ground to see what they can purchase from the country in the way of food products."

"Their packing plant may be established in western Canada. Mr. S. Arndt, superintendent, and J. M. Kim, secretary of the Canadian Livestock Co-Operatives, accompanied them."

**Wear On Shoes** The U.S. Bureau of Standards in Washington, D.C., has a washing machine for testing the life of shoe leather. In 24 hours the machine gives the equivalent of several months of wear to a pair of shoes, while observers study the reaction of the leather to the severe strain of the test.

Some grades of silk have been cheaper in London recently than they have been for 100 years.

In a recent month Norway exported 15,800 tons of fish.

The milky way of the heavens is said to contain approximately 30,000 million fixed stars.

Canada's Fresh Water Area More than half the fresh water of the globe is contained in inland waters of Canada and twenty different varieties of food fishes are obtained from them in abundance by commercial fishermen each year. Inland commercial fishing is carried on in six provinces and in the Yukon Territory.

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

**WINDOLITE** THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1817 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and easily cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, insulating the building against heat.

Young chickens and turkeys raised in WINDOLITE, WINDOLITE comes in rolls any length, but 36 inches wide only.

## Delegation May Bring Better Trade Relations

Increased Business With Argentina May Result From Visit

The visit of the Canadian trade delegation has aroused the press of Buenos Aires to comment very favorably on the prospects of closer trade relations between the two countries.

It has been suggested that negotiations be initiated for a mutual understanding between the Argentine and Canada on the all-important question of marketing wheat. Both countries, it is pointed out, would greatly benefit by such a move, although a basis of any such agreement has not yet been suggested.

Cordial discussions took place over a week-end between members of the Canadian delegation and representatives of the Argentine Government. Arising out of these discussions, it is confidently anticipated more profitable future business will result for both countries.

## This Motorist Was Lucky

Train Smashed On But Driver Escaped With Minor Injuries

Motorists who race locomotives to grade crossings seem to be blessed sometimes with an amazing good fortune. The driver of an automobile in the Southern States, recently was hit amazingly by a yard engine. His life was saved by little shock of a miracle. The locomotive crushed the wheels of his automobile, the chassis of the car dropped to the railroad tracks, and the automobile and driver were pushed along the track at a good rate of speed for more than 100 feet. The driver escaped with minor cuts and bruises. He collected the spare parts of his automobile, and aided by the railroad wrecking crew managed to get his smashed motor car to a vacant lot.

## Branch Line Construction

Construction Programme Of C.N.R. Is Proceeding As Anticipated In 1930

All the branch lines of the Canadian National Railways authorized for construction in 1927, were completed by the end of 1929, according to a return tabled in the House of Commons by Hon. R. J. Manion, Minister of Railways. Last year \$52,300,977 was spent to finish the work, making a total spent on the 14 branch lines authorized of \$13,197,600,000.

Construction is proceeding on the branch lines at which parliament gave authorization in 1926, five million dollars accounted for an expenditure of \$13,232,718.96 last year. For the current year the work will cost an estimated figure of \$3,750,000.
